TOURCRAFTERS

Sailing with US

Live a unique sailing adventure with us! We plan cabin charters to appeal to those who have not previously chartered in Greece and yet want to experience the sail of a lifetime and the adventure of discovering Greece and the Greek islands. Cabin charter is also inviting to those sailors who do not yet feel comfortable sailing their own charter because of their limited sailing experience or because they know they will see the best places if the trip is planned by the experts. There is no sailing in the world like sailing in the Greek islands. A true adventure that will bring together the peak excitement and tranquillity of sailing plus the spectacular sites and sounds of an ancient civilization with the spirited zest for life of the Greek people. The clearly defined coastlines of the islands, whose colours vary from emerald and turquoise to a deep indigo blue, are breathtaking. Greek architecture, influenced by thousands of years of history and neighbouring cultures, is seen in the marvellous island buildings and homes, set on waters edge or atop steep hills and mountain cliffs. In every island we visit, you will be overwhelmed with ancient temples and cities whose designs are still marvelled today.

We offer 134 cabin charters including motor sailers, motor yachts, sailing yachts, catamarans, bareboat and bareboat motor yachts, all with professional, expert and competent crew. We will sail in the island groups of the Cyclades, the Saronic or the Ionian sea. The selection of the islands we sail depends on the winds, the preferences of the charterers and, of course, the final decision for the itinerary. The sailing schedule is beginning on Saturday afternoon and ending Saturday morning.

Each day, the plan is to sail 3 or 5 hours between islands so there is plenty of time to stop for a swim and snorkelling, lunch and to leave enough time at the end of the day to see the sights.

Saronic Islands

Our fleet will set sail for the island of Aegina and head for the coast of the eastern Peloponnese through Epidaurus, Poros, Hydra, Spetses and other ports.
